Reasons for allowance

The following is a statement of reasons for allowance:

Upon consideration, the inclusion of the claimed pagewidth color printhead assembly, as claimed in the combination, is not found in the prior art. This difference is considered patentable over the prior art and reflects an improvement in the field of endeavor since the following apparatus claim limitations reflect an improvement in the field of endeavor and over the prior art of record.

The primary reasons for allowance is the following claimed combination is not taught "by another" pursuant to 35 UCS 102(e). The applicant has provided a proper Declaration pursuant to 37 CFR 1.132 which indicates he is "the original, first and sole inventor of all the subject matter which is disclosed and claimed in US Patent Application 10/728971," previously cited as teaching the instant claims.

The Examiner has provided an updated, extensive, and exhaustive search which produced no prior art to disprove novelty and nonobviousness. Hence the claims are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specifications:

On page 1, after the Title, inserted " This Application is a Continuation of 09/966289, filed 09/29/2001, now Patent No. 6698867, issued 3/2/2004.

This amendment was made in order to provide proper continuation data activity.
